

**ADAIR COUNTY COMMISSION MINUTES**  
**TUESDAY, JANUARY 7, 2020**  
**2ND DAY JANUARY REGULAR**

The Adair County Commission convened at 8:30 a.m. on January 7, 2020 in the Courthouse at Kirksville. All Commissioners were present.

At 10:00 a.m., the Commission met with Jim Williams, Sales Representative for L & B Electronics from Eldon, Missouri. Mr. Williams was asked by the Commission to discuss radio purchases and installation for a radio upgrade at the Road and Bridge Department.

Current antennas at the Road and Bridge Department were not installed properly. Mr. Williams said there were many options for installing the new antennas. After the antennas are installed, it will determine whether or not a repeater will need to be purchased to enhance reception. He said the repeater should be more than 100 feet in the air. The Commission stated there was a tower at the Road and Bridge Department, but it would need to be measured to determine the length. When asked, he stated that no lighting was required on a tower until it reaches 200 ft. He did not think that would be necessary for Adair County.

After further discussion, the Commission decided to move forward with purchase of the radios. They will also determine if the antennas will be mirror mounted or roof mounted. Mr. Williams stated that reception would be better with roof mounted antennas. He will verify the number of the radios to be installed and get back to the Commission.

At 1:30 p.m., the Commission met with Josh Yarrow of Wood Inc. Mr. Yarrow wanted the Commission to review the flood plain maps being created by his company. The maps identify areas within the County that flood. The map will indicate the 100 year flood plain as well as the 500 year flood plain areas even though Adair County does not participate in the flood insurance program. Maps were previously reviewed by the Commission on October 23, 2019.

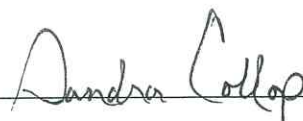

Mr. Yarrow said the final meeting of the Flood Study will be held February 5, 2020 at the Annex building. No additional changes will be made after this meeting without written request to the State Emergency Management Agency. The flood plain maps were last updated in 1983.

The Adair County Commission adjourned at 4:00 p.m. on January 7, 2020.

**Unscheduled Public Walk-Ins and other Non-Agenda Items for Tuesday, January 7, 2020:**
