

**ADAIR COUNTY COMMISSION MINUTES  
TUESDAY, JULY 23, 2013**

Continued from 115

Mark Thompson pointed out that the Road and Bridge's current revenue to expense is at 102%.

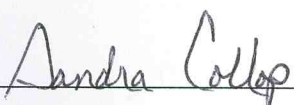

Stan Pickens said everything looked good.

Mark Thompson said that Dean West had contacted him and had a 30-32 foot tube for sale. Clifton said that would have to be used on an extremely narrow road. By the time it was installed, it would only be 20 foot wide at the most due to the road bed.

The Commission spent the rest of the day attending to County business.

The Adair County Commission adjourned at 4:00 p.m. on July 23, 2013.
