

**ADAIR COUNTY COMMISSION MINUTES
TUESDAY, MARCH 18, 2014
18TH DAY JANUARY ADJOURNED**

The Adair County Commission convened at 8:30 a.m. on March 18, 2014 in the Courthouse at Kirksville. All Commissioners were present.

The Commission met with representatives of Altofer Equipment. They reported to the Commission that the fuel sample taken on February 6 was tested and results showed there wasn't anything wrong with the fuel. The road grader that was reported to have jelled-up fuel should have run just fine as the fuel had been previously treated.

The representatives wanted to assure the Commission that if they knew about a problem with a piece of equipment, they would address it. Records indicated that Altofer had been contacted as many as four times, one including February 6, 2014 when it was reported the fuel had jelled up in the road grader. It was indicated that their service department had been contacted several times and not responded to problems. They wanted the Commission to know that had not been the case. Each of the times Adair County had contacted them was documented and each time they responded.

Altofer employee, Derek Star, is in the process of setting up Vision Link for Adair County. This is a production kink locator (gps) to obtain history on the road grader that was purchased from Altofer approximately two years ago. Not only will the location of the grader be known at all times, but also data such as fuel used, hours running, and hours idle will be available. Mr. Star can train all personnel that will have access to this information. These sensors can also be installed on any machinery, but data maybe limited due to the age of the machine.

The Commission stated they wanted to be copied on all correspondence with their company. The Altofer representatives stated they needed to know when there was a problem with a piece of equipment so they could address it.

The Commission spent the rest of the day attending to County business.

The Adair County Commission adjourned at 4:30 p.m. on March 18, 2014.

ATTEST:

County Clerk

Presiding Commissioner
